Cutting Device

Specification

ZIPA – C066 HA

- Dimensions: 530 x 310 x 310 mm
- Weight: about 15 kg
- Pitch: any
- Lead Ø up to 0.8 mm
- Cut length: from 2.5 mm up
- Components: taped - hole pitch 12.7 mm
- Operation: hand crank
- Production rate: 8.000 pcs/hr

Components

Description:

The cutting device ZIPA - C066/HA has been developed to cut leads of taped radial components. A unique body reference feature ensures an exact cut length allowing for variations in the component's seating plane in the tape. Benefits include a reduction in rework and post solder trim operations due to inconsistent lead lengths.
